Whether or not you are aware of it, mobile phone technology affects your body

Do you ever get a hot ear or head using a mobile phone?
Use a **smartDOT™** and carry the coolest phone

Look at the Medical Thermal Imaging Research and see the cooling effect in the head and right down the body when a smartDOT is applied to the phone.

*"Overall, it is concluded that the **smartDOT** has shown to be profoundly effective in negating the effects of mobile phone radiation on the human body."*

why do we need energyDOTS™

- Ⓢ It is not just the use of mobiles that concerns scientists. The rapid growth in wireless technologies has increased the electromagnetic fields around us over 100 million times in the last 50 years.
- Ⓢ We live in a sea of electro-pollution which zaps our energy.
- Ⓢ Research studies have shown that pro-longed exposure to unnatural frequencies can have an adverse effect on human health.
- Ⓢ It is widely recognised that children are more vulnerable.
- Ⓢ Some governments are issuing special precautionary advice.

how energypots™ work

- ① energypots™ are a suite of four small wafer-thin magnetic discs, each designed for a specific use.
- ① the low power magnet acts as a storage device. Magnets are often used to store information for example a video tape, tape cassette and magnetic stripe on a bank card are all storage devices.
- ① energypots™ are activated by Programmed Harmonic Interface Technology® (developed exclusively by Phi harmonics). This activation is similar to homeopathic medicine or other vibrational remedies, where an energy signature is stored in a solid substance.
- ① Each energypot™ is programmed with naturally occurring bio-energetic information according to its purpose.
- ① The powerful resonance held by energypots™ re-tunes man-made EMFs to a natural harmonic by a process known as the 'principal of entrainment'.
- ① An energypot™ acts like a tuning fork on electromagnetic fields in its immediate environment.
- ① The human body's electrical sensors recognise the re-tuned emissions as being in harmony with its natural healthy state. The body no longer needs to react defensively to emissions from the 'harmonised' device and electro-stress is relieved.

what do users say about energypoTS™?

*"I placed a **biopoT**™ under the mattress on my husband's side of the bed as he wasn't sleeping well. He was unaware that it was there but after three nights of deeper, longer sleep I decided to tell him. He immediately stuck the **biopoT**™ on his watch and is now enjoying greatly improved sleep night after night."* Ann, Office Manager

"I've been wearing the phi bioband for a week and since then I've felt much calmer and energized throughout the day. I don't feel sleepy after hours in front of the computer."

Laura Mapelli, Administrator

*"I wouldn't be without my **biopoT**™, my digestion has improved, I don't get headaches and I feel much less anxious."* Sinead Peak, Pilates Instructor

*"I was recently prompted to fit a **smartpoT** to my mobile phone by a series of headaches. Within a week my headaches had reduced in frequency and then they stopped altogether."*

Max Levell, Air Ambulance Pilot, Surrey, UK

*"Electro-stress can be very debilitating. I use a **smartpoT** and **biopoT**™ and recommend them to clients."* Dr Stephen Hopwood, Arcturus Clinic, Devon

*"I have been using Phi Harmonics products for the past couple of years, after experiencing how the **smartpoT** removed the stressful effect of the close proximity of my mobile phone (as determined by muscle testing)."*

Chris Halls LCPH, DipASK, MCMA,
Homeopathy & Systematic Kinesiology

*"My energy is much better since using the **electropoT**™ and **biopoT**™. I have started sleeping really well which I haven't done since before my children were born (some 18 years ago!). I am also much more productive when working on the computer."* Sarah, Reiki Master

*"For ages I had problems using computers. I used to feel quite dizzy and nauseous and get headaches, but, since using the **smartpoT** I haven't had this. just writing this email to you would have been difficult, but now it's much better. Thank you."* Claire Gittoes, Sussex UK
